

Newborn Screening Bulletin 2016-11

November 10, 2016

UPDATE ON SATURDAY SAMPLE PICK-UPS BY PUROLATOR

Purolator has updated their list of sites where Saturday pickup is not available. Please see the attached lists of sites where Saturday pickup is not available. If your site is on this list, please continue to send screening samples daily, Monday to Friday.

Selecting Saturday Delivery:

The Saturday delivery option is only available for selection when scheduling a Friday pickup. This option may not be available for all sites. The option for Saturday delivery will not appear on other days of the week.

When do we start shipping packages on Saturday?

Please start shipping samples on Saturday as soon as possible. These samples will be received at and tested by NSO on Monday. Please ensure that you choose an accessible alternative location for pickup and communicate this clearly to Purolator. This location can be selected when creating your waybills (see right) on the Purolator site. This location should be easily located by the Purolator driver.

Costs for Saturday pickup and delivery:

Please ensure you are using the NSO provided Purolator account for shipping of samples, so that NSO is charged for any additional costs associated with weekend services.
