

Bulletin #85

November 5, 2014

Now that most sites have transitioned to Purolator for shipping newborn screening samples, there are a few key items NSO would like to bring to your attention.

Please distribute this information to those involved in setting up shipments of newborn screening samples at your site.

1) SERVICE OPTION: Please select "**PUROLATOR EXPRESS ENVELOPE**" (see picture below). NSO's contract with Purolator ensures samples arrive by 8am. If "Express Envelope 9am" or "Express Envelope 10:30am" are chosen, additional shipping charges are incurred. If this occurs, NSO will have to forward on these charges to the site that selected this option.

Shipment Options

Description	<input type="text"/>
Package Type	Express Envelope ▼
Service	Purolator Express Envelope ▼
Number of Pieces	Purolator Express Envelope 9AM Purolator Express Envelope 10:30AM
Total Weight	Purolator Express Envelope

Upgrade Options

- Purolator Express Envelope 9AM
- Purolator Express Envelope 10:30AM
- Purolator Express Envelope
- ▶ Ship with Purolator Freight

2) TIMING OF SHIPMENT: Please ship samples **Monday—Friday**, as soon as they are dry (3-4 hours after collection). At this time NSO cannot accept Saturday pickups or deliveries.

3) ACCOUNT USE: Please remember that the account number provided to sites by NSO is for newborn screening only. Any shipments not destined for NSO should be created using a different Purolator account. Sites will be invoiced for non-newborn screening shipments.
